## Congressman Harry Mitchell Got It Right When He Made Sure Congress Funded The Children's Health Insurance Program

*It is called the Children's Health Insurance Program and it has been a huge success.*

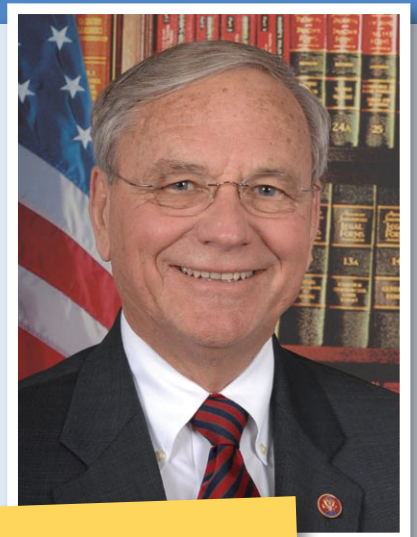

It has enabled children in Arizona to get health insurance coverage whose families couldn't afford it.

Now kids throughout Arizona are getting the medical treatment they need when they get sick; as well as vaccinations and tests to prevent future illnesses.

Harry Mitchell understands health care costs increase for everyone as the number of Americans without health care coverage rises.

People without insurance often don't receive cost-effective preventive treatments and are forced to seek care in an emergency room, where it is more expensive.

Harry Mitchell is fighting to make sure Washington continues to fund the Children's Health Insurance Program and to improve it so more kids in Arizona get health insurance.
